WEBINAR: AIRPORT ACTIONS & CAMPAIGNS

Lessons learned on successful strategies and tactics

AGENDA

- Welcome
- Speakers
 - Adam Isham - Save Maldives - #Save Maafaru -
 - Tara Burke - MTST - Struggle against Fraport at Vila Nazaré, Porto Alegre, Brazil
 - Steve Clarke - Bristol Airport Action Network, UK
 - John Jordan - La ZAD, France
- Breakout groups
- Summarizing, Info on Mapping & Closing

New airports and runways in the offing

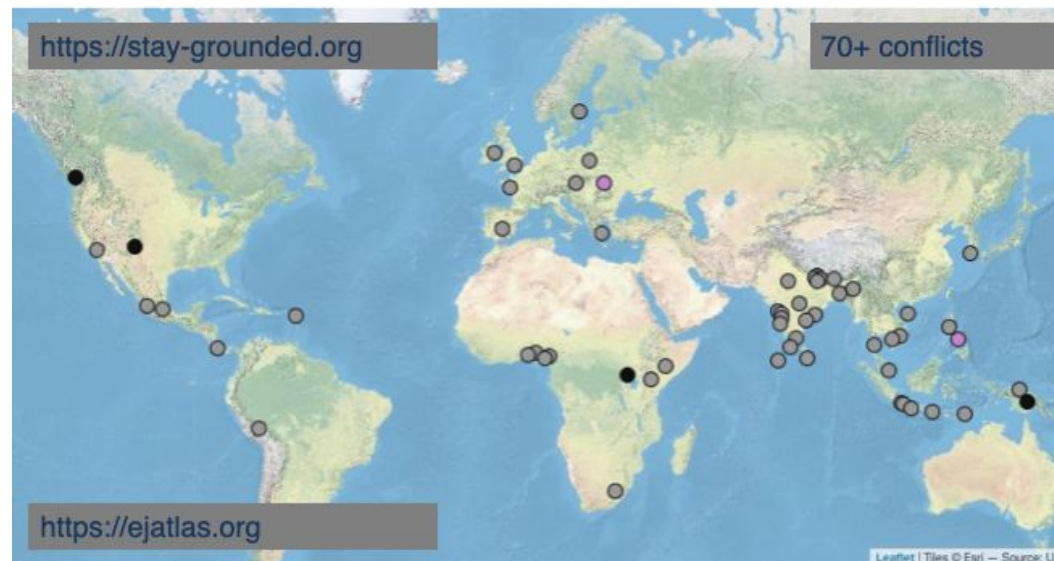

AIRPORT ACTIONS & CAMPAIGNS

Webinar: Airport Conflicts - Struggles for Environmental Justice

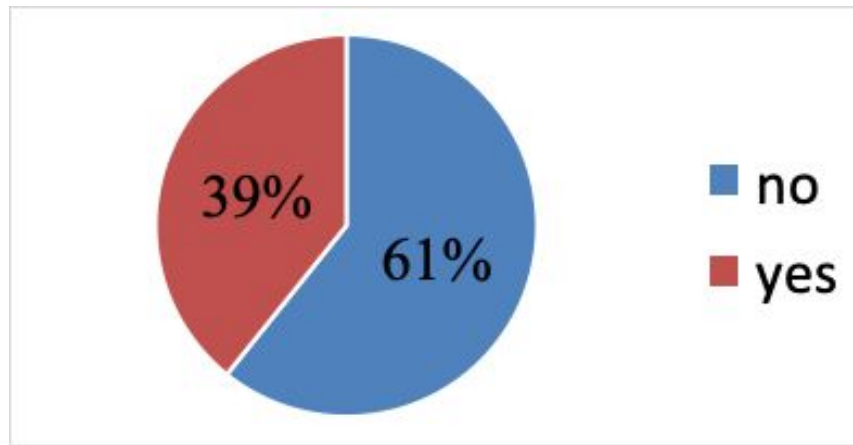

Airport Conflicts – Struggles for Environmental Justice

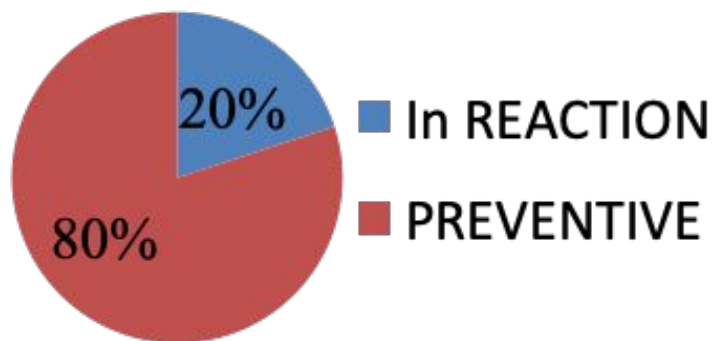

Jun 1, 2020

Success stories, victories, partial victories

Moratorium
Stopped
Resistance
Compensation

KEY QUESTIONS FOR ORGANIZING

- Who is consulted?
- Did communities give their prior and informed consent?
- How can information reach those affected by the project?
- Who profits from the project and who suffers?
- Who in the region can actually afford to fly?
- How is the project financed?
- Which political actors and companies are involved?
- What are moments of mobilization (eg. election campaigns)?

STRATEGY?

*What can we do today, so that tomorrow we
can do what we are unable to do today?"*

Paulo Freire

STRATEGY, TACTICS, ACTION

- **Strategy** the path we follow to achieve change (eg. changing the public discourse about aviation, public media work; direct action; lobbying; litigation...)
- **Tactics** the steps we take on this path (eg. creating and sharing information and expertise, actions of massive disobedience)
- **Actions/activities** single events, sometimes the only publicly visible elements (eg. producing a report on green flying, blocking opening of BER airport)

QUESTIONS

- How do the strategies and lessons learned apply to your struggle/struggles you know?
- Do you know of other inspirational airport struggles and strategies used?
- Principles?

ZONA NOROCCIDENTAL

Ofensiva ataca tráfico na Vila Nazaré

QUATRO ESTÃO FORAGIDOS

LÍDER COMUNITÁRIO

DOS JÁ ESTÃO PRESOS

Em uma operação que durou mais de 24 horas, a Polícia Militar de São Paulo (PMSP) realizou uma ofensiva para combater o tráfico de drogas na Vila Nazaré, localizada no bairro da Capela, na zona noroeste da capital paulista. A operação resultou na prisão de quatro pessoas e na apreensão de uma grande quantidade de drogas e equipamentos. A PMSP também informou que os quatro indivíduos já estão presos e que os outros quatro ainda estão foragidos.

A operação foi coordenada pelo Major da Polícia Militar, Carlos Roberto Oliveira, que também é líder comunitário da Vila Nazaré. Oliveira afirmou que a operação foi planejada há meses e que os policiais estavam esperando o momento ideal para agir. Ele também afirmou que a operação foi muito bem-sucedida e que os policiais conseguiram apreender uma grande quantidade de drogas e equipamentos.

Os quatro indivíduos já presos são: Carlos Roberto Oliveira, 35 anos, líder comunitário; João da Silva, 32 anos, suspeito de tráfico; João da Silva, 30 anos, suspeito de tráfico; e João da Silva, 28 anos, suspeito de tráfico. Os outros quatro indivíduos ainda estão foragidos e a polícia está buscando por eles.

A operação também resultou na apreensão de uma grande quantidade de drogas e equipamentos. Foram apreendidos mais de 100kg de drogas, incluindo crack e cocaína, e também uma grande quantidade de equipamentos, incluindo celulares, dinheiro e outros objetos de valor.

A PMSP informou que a operação foi muito bem-sucedida e que os policiais conseguiram apreender uma grande quantidade de drogas e equipamentos. Ela também afirmou que os quatro indivíduos já estão presos e que os outros quatro ainda estão foragidos.

Vinci Group

8 cases have been reported so far

Legend

Environmental Conflicts of Vinci Group

Beirut incinerators expansion plans and wastepickers struggle, Lebanon

Since the Waste Crisis of July 2015, the Lebanese government has mainly focused on the establishment of incinerators. While the voices of environmental activists and the informal recycling sector, consisting of children and refugees, remain unheard.

Vinci's plan for a new airport mid-Nature Reserve, Portugal

A second airport is planned in Lisbon, in the natural reserve of the Tagus estuary, which would have destructive consequences for local people, the ecosystem and the planet.

Opposition to highway to bypass Strasbourg, France

Opposition by "zadistes" to the construction of a motorway to bypass Strasbourg, the Grand Contournement Ouest, complaining of destruction of wetlands and protected animal species.

Sud de France TGV train Station in Floodable area, Montpellier, France

In spite of the local population opposition and the possibility of a genuine better alternative to receive the high speed trains connecting Nimes and Montpellier, Sud de France station construction seems imminent.

Bordeaux-Toulouse High Speed Rail

Further high speed railway plans and further ZAD contesting reckless development plans

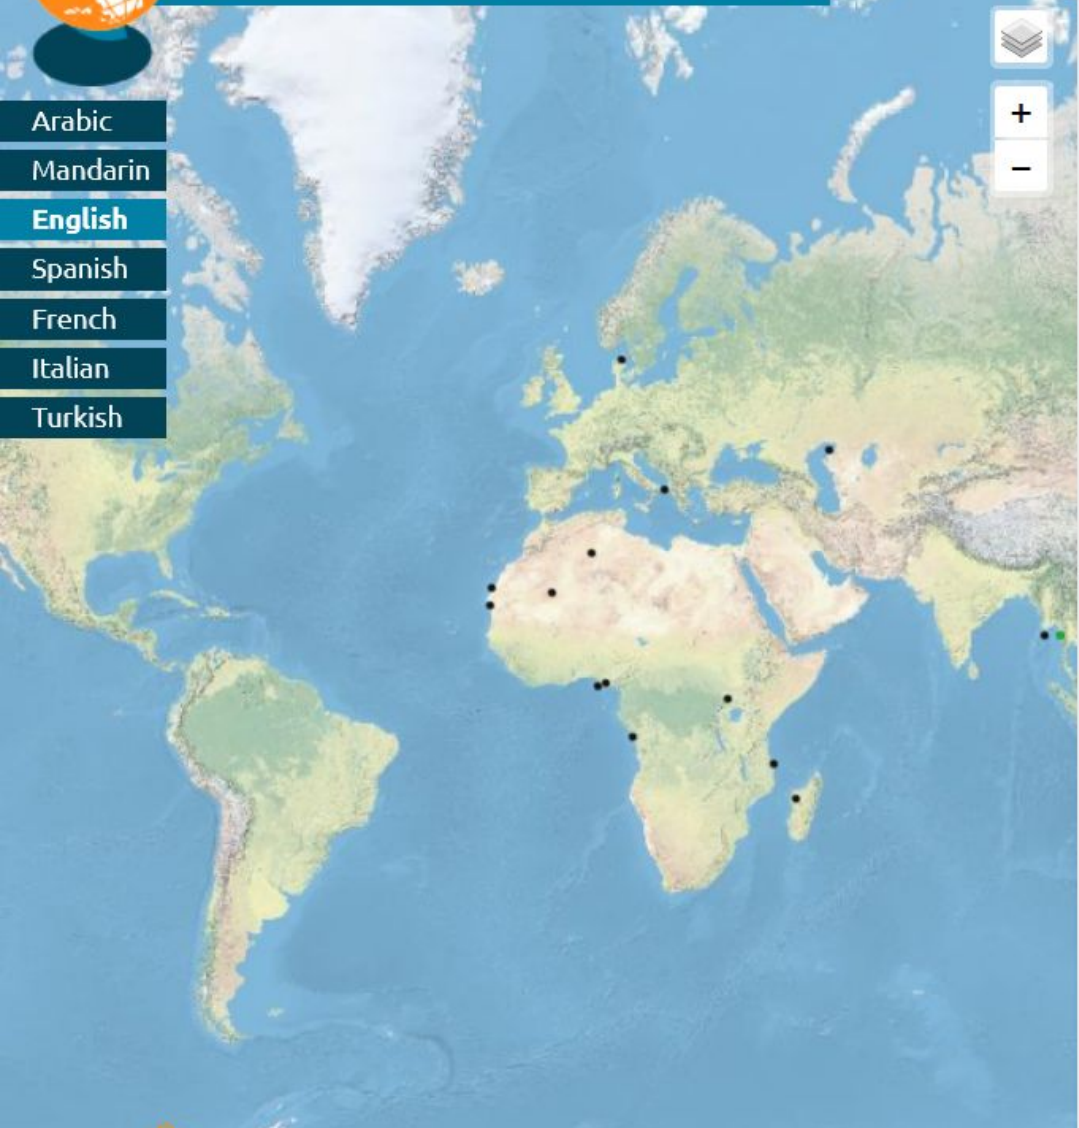

Construction of the highway Moscow-Petersburg through the wildlife forest, Russia

Total SA

16 cases have been reported so far

Legend

Environmental Conflicts of Total SA

Afungi LNG airport and construction camps, Mozambique

Afungi Airstrip and workers' camps, constructed to serve Mozambique LNG project, became the epicentre of the worst COVID-19 outbreak in the country. Gas development proceeds in the midst of violent insurgency and a worker building the airstrip was killed.

Tanintharyi Nature Reserve conservation area funded by gas pipeline developers, Myanmar

The conservation area claims to compensate for the impacts of three gas pipelines, excluding however indigenous practices and failing to respect rights of people to return to their homelands.

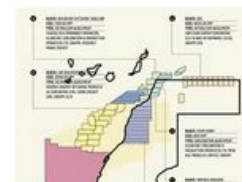

Offshore petroleum threatens fishing livelihoods and marine biodiversity in Mauritania

Offshore oil and gas development is advancing as the result of autocratic governmental policies and in disregard for Mauritania's biological marine ecosystems, necessary to the country's fishing trade.

Oil, gas, jihadism and militarization in the Taoudeni Basin, Mali

The 'second front war on terror' in the Sahara is building alongside a growing number of multinationals hoping to extract oil and gas reserves of Mali and Mauritania, and strong French military presence.

Total S.A.'s Anzarane Offshore Western Sahara Oil Exploitation

Political injustice compounded by environmental injustice: French oil company Total in Illegal Anzarane Offshore Western Sahara Oil Exploitation

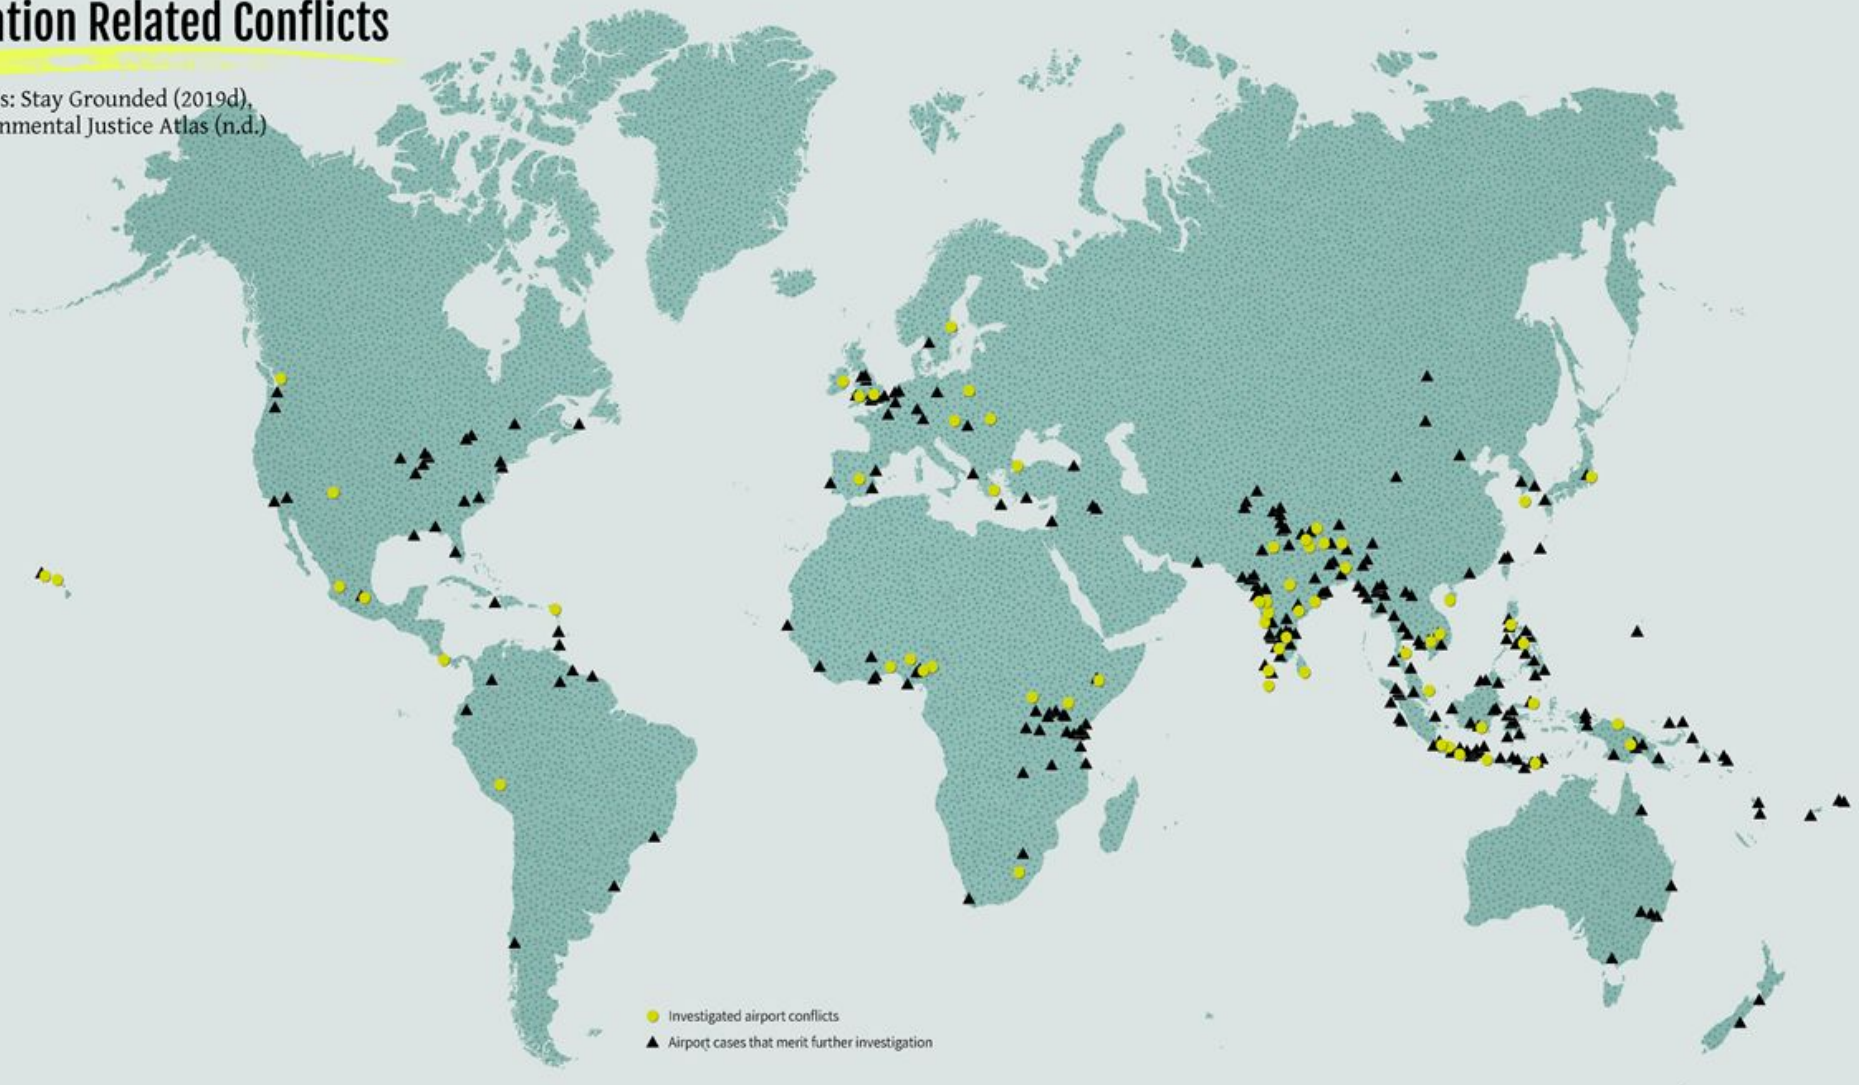

Cabinda Gulf oil&gas exploitation, Angola

+70 cases documented, +300 merit further investigation
